Subject: FW: STREAMS II ITD 23 QAPP - draft inserts for your review

Good Evening,

Attached are the draft QAPP inserts.

Thanks,

Alex

Subject: STREAMS II ITD 23 QAPP - draft inserts for your review

Alex and Holly,

Attached are drafts of inserts we are preparing for the STREAMS 23 QAPP. These are intended to be folded into the QAPP Section 3.2 (Process for Developing Data Sets and Map Layers).

We selected three different types of information sources so that we could get your input prior to completing the documentation of the other sources that are part of the National PFAS Data Explorer.

- The Chemical Data Reporting is mandatory and a longstanding program under TSCA.
- The Water Quality Portal accepts submissions from a diverse set of contributors and republishes their sampling data.
- The PFAS Places of Interest is generated by an internal data call to EPA programs and Regions.

These follow the organizational format Holly provided in her guidance and example.

Your feedback is needed, welcome and will help make the QAPP usable and useful.
